Art Unit: 1746

1. In view of the cancellation of claim 1-522, the Restriction Requirement of May 2, 2006 is hereby vacated.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 53-64, 66, 67 and 70 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by either Jones (U. S. Pat. No. 6,195,825) or Back et al. (U. S. Pat. No. 6,269,667).

Re claim 53, for example, note the permeate (as at 34 in Jones and as at 15 in Back) and retentate (as at 44 in Jones and as at 16 in Back). Re claims 54, 58 and 68 see col. 3, line 44 thru col. 4, line 21 in Back and see col. 3, line 64 thru col. 4, line 33 in Jones. Re claim 59 and 61, note that Jones discloses 50% as at col. 6, line 18. Re claim 55 Jones and Back disclose the filter.

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 65 and 69 are rejected under 35 U.S.C. 103(a) as being unpatentable over Jones or Back et al..

Art Unit: 1746

Claim 65 and 69 define over Jones and Back only in the recitation of the specific number of nine loads laundry. Nonetheless, Jones and Back disclose that the several subsequent loads may be washed. To employ nine, is deemed to be an obvious extension of the teaching of Back and Jones.

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. In Hein, Smith, Baubin et al., Hetrick, Jr., Mertz, Centis, Carroll, Jr., Kaplan, Yamakawa et al., Seibt and Krieger, note the water reusing means/methods.
